ABOUT ME

I am a cum laude graduate in Information Systems from the University of Johannesburg, currently pursuing an Honours degree. I am a Developer proficient in a wide array of programming languages including HTML5, CSS, PHP, C#, JavaScript, MySQL, Microsoft SQL Server, and more. With over three years of hands-on experience, I have not only mastered these languages but have also imparted my knowledge through teaching and actively participating in projects.

I have a solid grasp of Object-Oriented Programming (OOP) and have completed machine-learning projects while demonstrating a strong understanding of cybersecurity principles. My unwavering passion for coding and commitment to learning and adapting to emerging technologies drives my success in software development.
